Edmonton, Alberta,
1 January 1970.

The discovery of oil at Leduc in 1947 marked the beginning of a new era of unchecked industrial expansion in Alberta. This, and subsequent discoveries, have provided profitable opportunities for hundreds of Alberta business firms. These firms in turn have contributed in no small way to the continuing growth of this great province. Many not only serve local markets, but also produce and ship quality products throughout the world.

The Alberta Trade Index - 1969 is published to assist business firms in the purchase of Alberta manufactured quality goods at competitive prices. The Trade Index provides an up-to-date list of Alberta manufacturers, their addresses and products. I commend these firms and their products to you.

Publication of the Alberta Trade Index is but one of the many services of the Department of Industry and Tourism to the business community. I am proud to offer our assistance to you.

R. Ratzlaff

Hon. R. S. Ratzlaff, Minister,
Department of Industry and Tourism.

SECTION 1.	ALBERTA MANUFACTURING FIRMS	I
	In this section the manufacturing firms of the province are listed. Types of products are given, and approximate size of firm indicated by a simple letter code.	
	New firms which began operations subsequent to preparation of original lists are shown in an addenda on page	VI
SECTION 2.	ALBERTA MADE PRODUCTS	111
	Products of manufacturing plants and the names and addresses of the firms producing the specific product are listed alphabetically. Actual postal address can be obtained by referring to Section 1.	
SECTION 3.	ALBERTA TIMBER QUOTA HOLDERS	188

Many of the Alberta firms listed in this Trade Index label their products with the Alberta floral emblem, emphasizing the fact that they are Alberta made.

Albertans benefit by patronizing Alberta manufacturers and buying Alberta made products. Buying Alberta made goods helps to increase local employment, encourages industrialization and produces a sounder economy.

Support Alberta Industry by purchasing Alberta made products.
